# A complete guide to using MVP of Trava.finance

❖ How to faucet tokens to test pools on Trava.finance?

Step 1. Open https://app.trava.finance/faucet

Step 2. Input your wallet address and select the token that you want to faucet

❖ How to create a pool in Trava.finance?

Step 1. Connect your wallet

To create a new pool you need to connect your wallet first.

1. Open https://app.trava.finance/pools
2. Click **Connect** button in the upper right in the corner to connect your wallet
3. Choose your wallet address and enter your password

You have successfully connected your wallet to App Trava.finance.
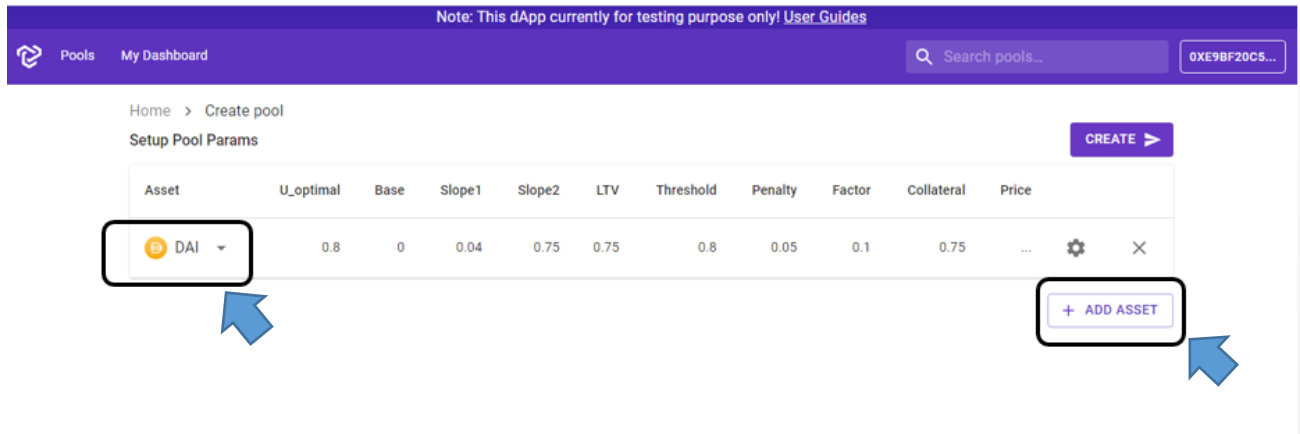

Step 2. Create a pool

The next step is to create a pool

1. Click **Create Pool**

2. Set up your pool
    a. You can choose another asset or add a new asset to your pool. In the MVP version, you just add 2 assets in a pool.

Asset	U_optimal	Base	Slope1	Slope2	LTV	Threshold	Penalty	Factor	Collateral	Price
DAI	0.8	0	0.04	0.75	0.75	0.8	0.05	0.1	0.75	...

    b. Click ⚙ if you want to change parameters of the asset. Each asset in your pool has specific values to their risk, which influences how people are loaned and borrowed, especially, how much profits pool owners will receive. Then click **OK.**

Asset	U_optimal	Base	Slope1	Slope2	LTV	Threshold	Penalty	Factor	Collateral	Price
DAI	0.8	0	0.04	0.75	0.75	0.8	0.05	0.1	0.75	...

3. Click **Create** then Click **OK.**

Congratulations! Now you own a lending pool in Trava.finance.

❖ Interact with a pool on Trava.finance
- **Deposit an asset in a pool**
1. Open https://app.trava.finance/pools
2. Choose a pool address which has an asset you want to deposit
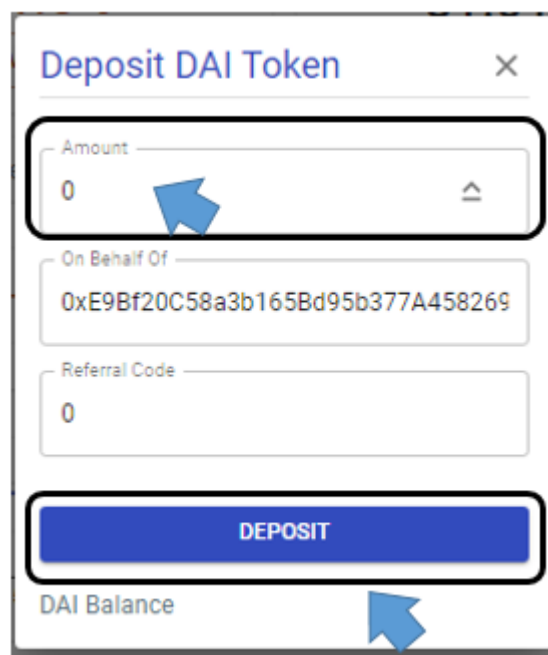

3. Click **Asset** which you want to deposit

4. Click **Deposit**
   - Enter amount of your asset
   - Then, click **Deposit**

5. Your wallet notification will appear, you check again the total amount and gas fee. If they are right, click **Confirm**.

That's it! Now you can see **Your Deposited** on the screen. If you want to deposit more than 1 asset, you can do it similarly.

- **Withdraw an asset in a pool**
1. Open https://app.trava.finance/pools
2. Choose a pool address which you deposited
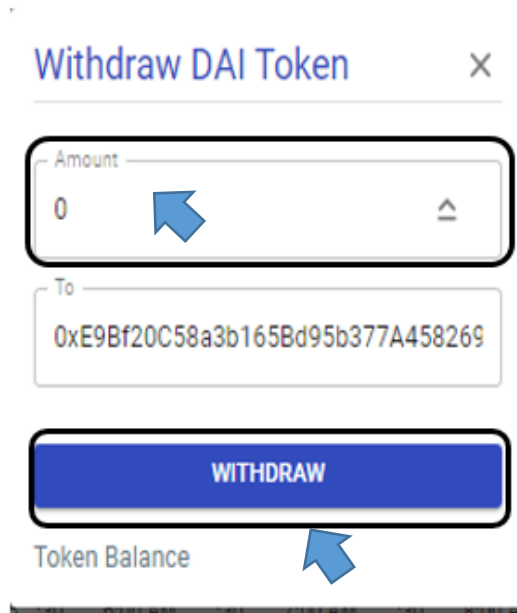

3. Click **Asset** which you want to withdraw
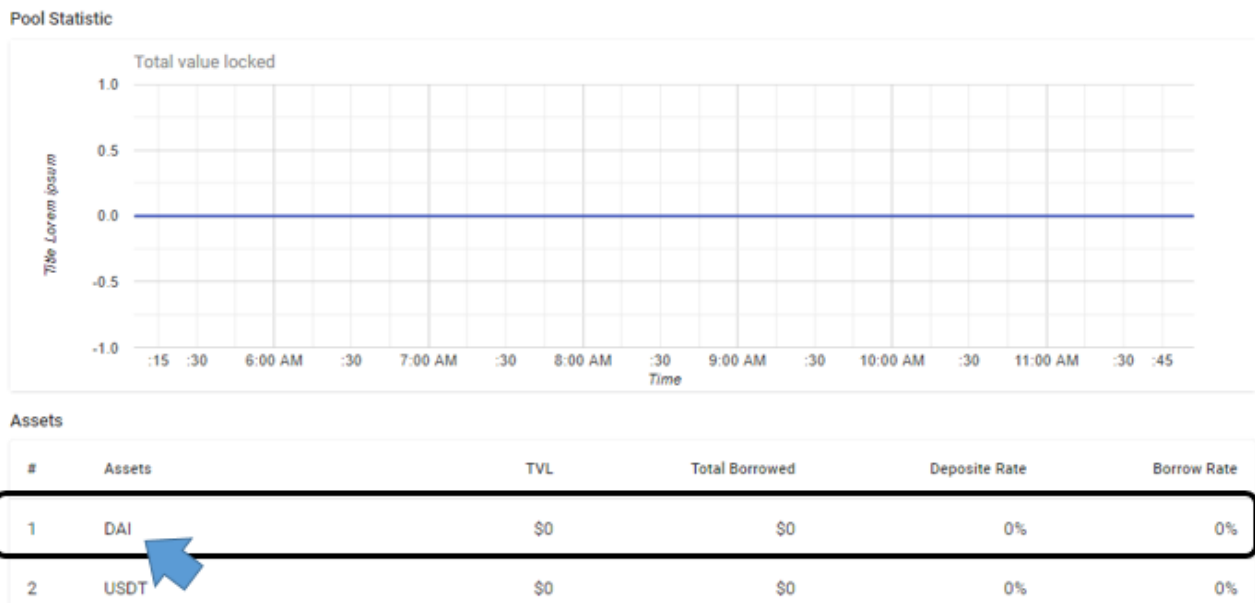

4. Click **Withdraw**
   - Enter the amount of asset
   - Then, click **Withdraw**
